DECISION AS TO MILEAGE BOOKS

Much Interest in Supreme Court's Ruling.

Will Conductors Pull Mileage Now the Question Being Asked—Believed That Legislature Will Pass Bill Requiring That This Be Done At Coming Session—Chief Justice Clark Sets Forth Reasons Why Requirement Is Unreasonable.

Naturally the decision of the State Supreme Court, in which it was held that a passenger was entitled to damages because he was put off the train after he had tendered the conductor mileage, was received with much interest in Greensboro, especially by the traveling men.

The question now being discussed is will the conductors pull mileage on the trains as was customary before the present rate became effective.

When the railroads put the present rate in operation they regulated the sale of mileage books by requiring that holders of mileage should have the mileage exchanged for tickets at the ticket office to relieve the work of the conductor. There was a howl from the traveling men at this hardship, as they termed it. At the last session of the General Assembly a bill requiring conductors to accept mileage was killed in the senate by the presiding officer on a tie vote. This bill passed the house by an overwhelming majority. It is quite probable that unless the railroads agree to allow conductors to accept mileage in lieu of tickets the matter will be passed upon by the next legislature.

The court in awarding the plaintiff damages in the case referred to did not deem it necessary to go into the reasonableness of the regulation, but in concurring in the opinion with Justices Hoke and Manning Chief Justice Walter Clark said:

"I not only concur in the opinion of the court, but further, upon a point as to which it was not found necessary for the court to express itself, I am of opinion that the requirement that the holder of a mileage book shall present it and obtain a ticket thereon, is an unreasonable regulation and therefore void.

"By chapter 216. Laws of 1907, the General Assembly prescribed 2 1-4 cents per mile as a maximum legal rate for transportation over the railroads in this State. Thereupon, as is usual, one of the said railroads applied to the Federal court to defeat the execution of the will of the people of this State. That matter came before this court in State vs. Railroad, 145 N. C., 495, where many phases of this subject were discussed. An account was ordered by the Federal court to be taken to ascertain whether the reduction of rate by the General Assembly was confiscatory. The result was that it was ascertained that the judgment of the public in exercising its right to regulate these corporations had not only not been just, but that the earnings of the corporations had been greatly increased thereby. They then addressed a letter to the executive of this State, in which they proposed that if the State would change the rate to 2 1-2 cents per mile they would issue mileage books good on their lines within and without the State and good on all the railroads in the State at the rate of 2 cents per mile. Thereupon, the special session of 1908 was called which enacted the 2 1-2 cents per mile rate. Nothing was said in the statute as to the mileage books, as that was an offer on the part of the railroads. Every one thought that of course the mileage books would be such as had always been issued over the roads in this state, and that holders thereof would be saved the trouble of getting tickets. Such had always been the case with mileage and no one had heard till then of a mileage book in North Carolina, which was not good upon the train, but which was required to be first presented to the agent and a ticket obtained.

"The distinguished counsel who argued this case before us on the part of the plaintiff contended that this change was made through spite on the part of the railroad companies because they had been compelled to yield to the expressed will of the people and that it was a deliberate plan also on their part to discourage the public from availing themselves of the privilege of using mileage by making it more troublesome than the purchase of tickets instead of a convenience as formerly. We need not discuss motives. It would seem clear from the history of the transaction that the change is a breach of good faith. It was not what the public understood, or had a right to understand, the railroads to offer.

"The learned counsel for the plaintiff earnestly contended in their brief that the regulation requiring the purchase of a ticket in exchange for mileage is in itself unreasonable. If so, the regulation is void, Ammons v. R. R., 138 N. C., 555. Counsel then set out seriatim the reasons which the defendant has given for exacting such requirement of the traveling public: (a) That it is a check upon the dishonesty of conductors. In reply to that counsel, justly assert the excellent character of the railroad conductors in this State, and maintain that as a body they are honest, faithful, and courteous, and that if one can be found that is not so, inasmuch as the railroad company discharge them at will, that it is not reasonable to impose this vast amount of inconvenience upon the traveling public which has not been required heretofore. They add that the railroad companies still allow conductors to collect cash fares. Indeed this defendant requires the mileage book to be presented to the conductor as well as the ticket. Why, then, require the ticket at all?

"(b) As to the second contention that there may be loss by reason of conductors losing the mileage that they take up, counsel points out that they are no more liable to lose mileage than tickets or cash, and that such excuse was never heard of before, and is not now heard of over the great systems elsewhere in this Union over which mileage books are still used as heretofore.

"(c) As to the third contention, that baggage can be fraudulently checked by those riding on mileage books, plaintiff's counsel assert that it is as easy for the baggage master to punch the mileage book to the point to which the baggage is checked as it is to punch the ticket that is received in exchange for it, and that such requirement to prevent fraud was not needed heretofore in this State and is but rarely used on the railroads in this country, except in this immediate section, notwithstanding the vastly greater quantity of baggage which is carried elsewhere.

"The plaintiff's brief further asserts that it takes from three to five times as long to issue a ticket in exchange for mileage as for one issued for cash and that the result is a congestion and a wholly unnecessary delay not only to the holders of the mileage book but to the entire traveling public as well, and that such delay is vexatious and the regulation is unreasonable and without any good cause."

CAMPAIGN FOR THE NEW COUNTY

High Pointers in Raleigh to Press Claims.

Matter of Cutting Up Guilford, Davidson and Randolph and Forming Ransom County To Be Made Issue of Session of Legislature—Union Passenger Station At Sanford—Plans For Station At Shelby.

Raleigh, Dec. 8.—Announcement is made from the corporation commission office here that the union passenger station for Sanford, in process of construction for several months, was opened for service today. It is a $10,000 structure.

The commission also reports the adoption of the plans for a separate passenger station for the Seaboard Air Line at Shelby to cost something like $12,000. Heretofore the depot has been a combination freight and passenger one.

Some of the preliminary campaigning was done here today by Col. Wescott Roberson and J. J. Fariss, of High Point, for the creation of the proposed new county with High Point as the county seat, the county to be made up of portions of Guilford, Randolph and Davidson. They claim that there is really very little opposition to the new county, even in the section of the counties involved that are not included in the proposed new county territory. They say the county would have about $6,000,000 assessed valuation, 25,000 population and 231 square miles of territory. They propose to make the question of the creation of the new county one of the real live issues of the coming legislative session.

The movement for the formation of a social club made up of the officers of the North Carolina National Guard is well under way with a view to the erection of a commodious club house at Camp Glenn, Morehead, for the use of the officers during annual and special encampments. The plans for the club house have been prepared and were inspected here today by Col. Alfred Williams, General B. S. Royster and Adjutant General R. L. Leinster. The club house is sure to be up and ready for service by the next annual encampment these gentlemen say.

ELECTRIC CROSS AT HOSPITAL.

It Was Completed Yesterday and Used on Last Night.

The handsome electric cross on the dome of St. Leo's Hospital, donated to the hospital by Northern priests, was completed yesterday and the current turned on last night. The cross contains something like 25 electric bulbs and can be seen from the elevated places in the city. Both sides are lighted up and passengers on the trams can easily see the cross as the trains go dashing by. The sisters are greatly pleased with the cross. Some time ago when Mr. Bird S. Coler and several Catholic priests were in the city they visited the hospital and an order was given the Public Service Company to have an electric cross made and put up. The wiring was completed yesterday, it being so arranged that the current can be turned on from the first floor. The cross will be illuminated each night until about midnight.

FIRST PHILATHEA CLASS

Of Presbyterian Church Holds Meeting In Smith Memorial Building.

The first Philathea class of the First Presbyterian church held their business meeting last night in the Smith Memorial building. Plans were made for remembering the children at Barium Springs in a substantial way, and a large box is to be packed with useful articles and sent to them in time for Christmas eve.

After the business meeting there was a social hour which everyone was permitted to enjoy free and unhampered by convention. Thus the evening was one of much profit and pleasure.

A MISTRIAL IN CAUDLE CASE

Jury Could Not Agree on Verdict.

Stood Seven For Conviction and Five For Acquittal When Order Was Made—Young Woman Recognized For Appearance At Next Term of Court—The White Slave Case Taken Up Yesterday Afternoon—Evidence of a Revolting Nature.

Late yesterday afternoon after United States court had adjourned for the day the jury in the case of United States vs. Daisy Caudle, reported that they were unable to agree upon a verdict. Judge Boyd ordered a juror withdrawn and the entry of mistrial made upon the minutes of the case. It is understood that the jury stood seven for conviction and five for acquittal when this order was made.

The young woman was recognized for her appearance at the June term of court when the case will be tried again.

The case went to the jury just before a recess was taken for dinner yesterday, there being able speeches for the defense and also for the government.

When court convened for the afternoon session the case against Jos. Napier, E. Charles Quaster and Charles Randolph, alias Charles Brown, was taken up. This is the case in which the defendants are charged with violating the white slave traffic laws. Only six of the twenty-seven witnesses for the government were examined yesterday afternoon, the evidence of nearly all being to show that Quaster and one of the girls had lived together as man and wife at several places, notably Charlotte, Winston and King. One of the girls was put on the stand and the evidence brought out was of a most revolting nature, all ladies being excluded from the court room while the witness was on the stand.

The evidence told the story of a young girl in Baltimore being persuaded by Quaster to come South and join certain shows which hold forth at fairs, the story of the money to be made being poured into her ears to induce her to leave her aged mother, of whom she was the sole support, and follow the life of a show girl. This life was pictured most beautifully to her, none of the wrong and immoral features being brought forth. She yielded and traveled to Winston where she stopped at a hotel as the wife of Quaster. Then to Danville where she was engaged at his instance in a show of a most immoral nature. Then to King and on to Charlotte. Here her life of degradation and shame was checked by the timely arrival of a detective sent by her mother to find her darling girl, who carried her home. Until this time she remained with Quaster as his wife.

There are a number of the girls whom, the government charge, Quaster and Napier used in this manner, but it is not likely that all will go on the stand. In addition to the 27 witnesses sworn yesterday the government and an extra supply of 15 in case their testimony is needed. The defense also has a number of witnesses. The case will hardly be concluded Saturday.

This is the first case of the kind ever tried here and throughout the afternoon the court room was packed with spectators, even more than attended the Battle trial last year.

THE HIGH SCHOOL AT GLADE VALLEY

Rev. S. M. Rankin Reports That Institution Will Open On January 4—Buildings Now Being Furnished—Work of Hauling Furniture a Herculean Task.

Mr. Editor:

Please allow me space to say a word about our work at Glade Valley to our friends among your subuscribers. We will open school on Jan. 4. I am now here having the buildings finished and furnished. You can hardly imagine what an undertaking it is to haul the furniture for 36 rooms across the mountains, it taking the wagons two and a half days to make one trip.

Our buildings are not fine but well arranged and well built. If kind friends would give $2,000 more before January in addition to what is promised, we would be able to open school in a plant that cost over $10,000 and every bill paid, and we can accommodate fifty boarders. Since Mr. A. T. Walker had to give up the work because of sickness, I have had to give it my personal attention and could not solicit funds as I had done. That is why we are $2,000 behind now. I do not want to start this mission school with a debt and with your help we will not.

Saturday night it snowed, and all day Sunday I could hear men and boys hunting and shooting on every side. Sunday afternoon one country store near by bought 75 rabbits that were killed during the day. You may know I went to church with a heavy heart and with the prayer that God might save this people. We had about 40 at Sunday school. A bright little girl eleven years old played the organ. They are planning to have exercises and a Christmas tree on Christman eve. I fear it will be very poor for they know little about such things, and have only a few dollars with which to buy a treat for the children, but the children are so interested. It made my heart ache to think, just to think. We had a good congregation and I preached. At the close of the service five united with the church. Thus God is blessing our work at Glade Valley and we renew our courage.

ALUMNAE ASSOCIATION OF THE HIGH SCHOOL

Important Meeting To Be Held December 29th—Graduates Urged to Be Present.

The Alumnae Association of the Greensboro High School is to be reorganized, or perhaps revivified would be a word more applicable. They are supposed to be organized, but of late the association has been in a state of lethargy.

At a meeting of the executive committee of the association it was decided to call another meeting for the 29th instant, to be held in the West Market Street church annex, and a circular letter will be sent to all recent graduates of the High School urging them to be present. An interesting program is being prepared, and the meeting is to be one of social as well as business interest.

This is a day when civic associations are being formed among college students in the large cities, and some of them are potent forces for physical beauty, health and civic righteousness.

Connor, of Raleigh, secretary North Carolina Historical Society.

An attractive program has been arranged, a feature of which will be a talk on North Carolina history by Mr. Connor.

It is earnestly desired that every member of the Woman's Club be present, and all are asked to keep in mind the date, place and hour—Saturday afternoon, December 10, Elks' building, 3:30 o'clock.

MEETING OF THE LAYMEN SUNDAY

Preparatory Service at Grace Church.

Every Layman in the City Is Urged to Attend Meeting—Will Be a Preliminary Service For the Anniversary Services To Be Held in January—Special Music—Addresses by Prominent Laymen of City Churches.

On next Sunday afternoon at Grace Methodist Protestant church a special meeting of the Laymen's Movement will be held, the service to be preliminary to the anniversary services of the Laymen's convention to be held on January 12-13, 1911.

The meeting, which will begin promptly at 3:30 o'clock, will be of a most interesting nature and every layman is urged to make a special effort to be present. Mr. F. P. Hobgood will preside and there will be several addresses, followed by a general conference.

The Greensboro Male Chorus will have charge of the music and an interesting program of music is being arranged. A cordial invitation is extended all men interested in missionary work to attend. The program follows:

Song service.
Invocation.
"Fulfilling Promises," A. M. Scales.
"Every Member Canvassed," C. A. Hines.
"Educational Campaign," C. H. Ireland.
Open Conference.

This meeting is a result of the follow-up conference held in this city some weeks ago and is for the purpose of arousing interest in the missionary work. In a number of the churches as every member canvass has been or is now being made and December has been designated as missionary month. In all the protestant churches of the city the pastors will preach a missionary sermon and the missionary committee will have charge of a service during the month. The intention of the leaders in this movement is to keep the interest which was aroused last winter on the increase and they realize to do this the matter must be kept constantly before the people; that when the people fully realize the great need of the work and know more of existing conditions they will respond nobly to the cause. The object is to impress on every man the fact that he can help in this great work, that a few cents contributed weekly is worth more to the cause than a few dollars contributed annually.

HOW TO CURE RHEUMATISM

It Is An Internal Disease And Requires An Internal Remedy.

The cause of rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. RUBBING with oils and Liniments WILL NOT CURE, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fiber of rotten wood.

Science has at last discovered a perfect and complete cure, which is called Rheumacide. Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumacide strikes the root of the disease and removes its cause. This splendid remedy is sold by druggists and dealers generally at 50c. and $1 a bottle. In Tablet form at 25c. and 50c. a package. Write to Bobbitt Chemical Co., Baltimore, Md. Booklet free. Tablets sent by mail.

For sale by Howard Gardner, Druggist.

POINTS TO ROME; WARNS

New York School Supervisor Sees Tendency to Decay—Buildings Wasted, He Says.

Baltimore Sun.

The use of public school buildings and grounds outside of the school hours for recreative play was the subject of a lecture last night by Mr. William H. Maxwell, Supervisor of Schools for New York City, before the Social Service Club of Maryland at the Eastern High School.

The speaker was introduced by Mr. Louis H. Levin, president of the club, who spoke briefly on the call today for trained men.

Mr. Maxwell, said in part:

"The question of the use of our schools out of the regular hours is one of great importance, for the waste incurred by not using the school buildings of the cities of America more than six hours a day I class as the greatest extravagance of all municipal administration.

"The use of our buildings in New York was forced upon us, first, by the great foreign-born population of New York; secondly, the density of population; thirdly, the peculiar housing of many of our people in tenements, and fourthly, immigrants who come to us after their school days are a thing of the past.

"The lack of physical and social training of children is the greatest indictment that can be brought against the American city. The tendency of all urban population is to decay. Rome is an example, and this is due to the neglect of the people to prepare the children to accomplish more than did their fathers. Our methods are not advancing as they should. An example of antiquated notions is that school desks are screwed on the floor, as if all the children had to do in school was to read books and write copy.

"I hope to see the day when all our present furniture will be burned up. But the greatest failing of our system is the failure to supply adequate playgrounds. The way schools are administered teaches silence and unquestioning obedience. More play is what we need. This leads to the true developments of citizenship. The lack of playgrounds leads the children to play on the street; along comes a policeman and moves them along. They come to regard the police as their enemies and thus become enemies of law and order. This leads to the formation of street gangs and from these criminals."

Mr. Maxwell told of the playgrounds in New York, which are under the supervision of expert trainers and in which trade industrialism is taught.

The speaker described how the roofs of the larger buildings had been converted into amusement places for the poorer classes, where they can gather in the summer and listen to free music. The average daily attendance at the roof playgrounds last summer, Mr. Maxwell says, was more than 22,000.

The lecture was illustrated.

J. W. Greer, Greenwood, La., suffered with a severe case of lumbago. "The pains were so intense I was forced to hypodermic injections for relief. Worse than an alarm of fire at night is the metallic cough of croup, bringing dread to the household. Careful mothers keep Foley's Honey and Tar in the house and give it at the first sign of danger. It contains no opiates. Howard Gardner.

RAISING A BULL CALF

Senator Stephenson Speaks Wisdom Not Exactly Timely at the White House.

Wash. Cor. N. Y. Sun.

Senator Stephenson expressed grief at the White House today as he discussed the untimely end of Bill Wayne, the bull calf presented to President Taft by Pauline Wayne, the registered Holstein from Senator Stephenson's farm. The Senator gave the cow to the President. He had high expectations for the bull calf when he learned of its advent.

"That calf was easily worth $500,' observed the Senator. "His death was due to the ignorance of those who tried to rear him. You cannot raise a calf on cold milk and corn meal. Any farmer boy in Wisconsin will tell you that."

"Senator, what about the progressive Republican movement in Wisconsin?" he was asked.

"Oh, I don't know about that," replied the Senator. "A bull calf should have milk warmed to the temperature it has as it comes from the cow," said Mr. Stephenson.

"Will La Follette be indorsed for President by Wisconsin in 1912?"

"I don't know," replied the Senator with a snap. "A bull calf requires warm milk. Anybody ought to know that," the Senator sighed as he stepped into his carriage.

Take Care!

Remember that when your kidneys are affected your life is in danger. M. Mayer, Rochester, N. Y., says: "My trouble started with a sharp shooting pain over my back which grew worse daily I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley's Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." Howard Gardner.

The Famous Rayo

Does Not Strain the Eyes

Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain.

The Rayo is designed to give the best light, and it does.

It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price.

DAY 762. PHONES NIGHT 1442

AN OLD TIME DUELIST

By R. PEMBERTON SLADE

Copyright, 1910, by American Press Association.

In the olden time, when dueling was prevalent among the higher classes, there lived in a small town in Maryland a young man named Arnold Kemper, who kept everybody about him in a state of terror on account of his predilection for the code. He knew of every meeting between prominent men that had occurred in the colonies from the settlement of Virginia. He often declared that no gentleman should refuse to fight when challenged and if he did so should be posted as a poltroon and a coward.

Kemper had never been out himself, but averred that nothing had ever occurred to necessitate his fighting. But if— Here he would end his prophecy of what he would do in case he were insulted, but only so far as words were concerned, for the expression on his face was something frightful to behold. Girls would clutch their lovers' arms and tremble for them. The men themselves looked upon the threatener with mingled fear and admiration.

If any one happened to stumble against the duelist's foot or spill a drop of liquid on the ruffles that adorned his shirt front, off would come the unlucky man's hat and out would come an obsequious "Beg your pardon." Kemper would scowl, then his features would relax and he would say, "Certainly; it was accidental," leaving those present to infer that if it had been intended it could only be washed out in blood.

One day there came to the town a quiet, unobtrusive young man who, knowing nothing of Kemper's reputation for ferocity, was not so careful as others in avoiding offending him. Kemper was a Tory, while the stranger was a Whig. That was at a time when the storm of revolution was brewing and opinions on one side or the other were running high. One evening Kemper was in a tavern telling what he would do when it became necessary to defend the king's sovereignty, whereupon the stranger walked up to him, pulled his nose and said:

"That's the way I would treat the king."

Every one present expected to see the stranger annihilated. Kemper rose from his seat, made a profound bow to the man who had insulted him and retired from the tavern. Presently one of his friends returned bearing a challenge to the stranger. It was accepted, and the challenged man, having the right to choose the weapons to be used, chose pistols and insisted that the principals should fight in a dark room.

Kemper declared such a meeting entirely without the code. The stranger said that he didn't care if it was. He would fight in a dark room or not at all. Kemper then declared the affair off. His friends were surprised. They told him that either he must fight or forever lose his reputation as a duelist. Kemper demurred. Several days passed, and the stranger who had pulled the terrible man's nose still lived. Then Kemper, finding that those who had stood in awe of him were treating him with contempt, yielded.

It was agreed that the meeting should take place at the tavern in a room on the second floor and at 10 o'clock at night. The shutters were closed so that not even a ray of starlight could get in, and every article of furniture was removed from the room. There were two doors to the chamber, and each of the principals was let in to it by one of these doors. Once in they were to remain standing by their respective doors till the word "Fire!" was given by a man outside with a stentorian voice, after which each should be at liberty to kill the other as soon as he pleased.

Ten minutes after the signal had been given not a sound had been heard. But the chamber was a large one, and the parties might in their maneuvers have passed each other a number of times without knowing it. Then suddenly a shot was heard. One pistol had been emptied, and as each man had been supplied with but one weapon with a single barrel half the battle had been fought. Several minutes elapsed, and another shot was heard. Then the doors were thrown open, and those outside rushed in with candles.

Only one of the participants, the stranger, was visible. He looked as much puzzled as the rest.

"For heaven's sake!" exclaimed one of the party. "You can't have eaten your adversary."

"Eaten him? No. I explored the room till I was tired; then I heard a shot. I didn't see the flash, for my back was turned at the time. Of course, after that he was at my mercy, and since I couldn't kill an unarmed man I concluded to discharge my pistol in the air. The only way to do that safely was to fire up the chimney."

This turned the attention of the party to the big fireplace common in those times, and one of the party, holding a candle there, exclaimed:

"There's blood on the hearth!"

At that moment down dropped Kemper.

Then there was an explanation. Kemper's pistol—it had a hair trigger—went off on account of his nervousness. Then he had crawled up the chimney for safety. The stranger, firing "in the air," gave him a flesh wound in the leg.

That ended Kemper's supremacy.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

President Taft's appointments indicate that he wants to punish Mr. Morehead for getting his party so badly beaten.

Congressman Sulzer has attacked the price of beef. All the non-vegetarians will be inclined to vote for Sulzer for almost anything he might want.

As usual there was a great diversity of opinion over the merits of the President's message. But all hands agree that it was too long.

Three United States Senators are ill. A number have died since the last session. A sort of nemesis seems to be pursuing the members of the distinguished body.

A majority of the Ballinger investigating committee says that Ballinger is all right. The Democratic minority on the committee says that Ballinger is all wrong. The Democrats are right. The people said so last month.

Society girls in Pasadena, Cal., refused to mingle with Japanese naval men of high rank. The yellows and the blacks somehow excite antipathy on the part of representatives of the Caucasian race. It is human nature and human nature will assert itself.

The National Cloak and Skirt Manufacturers' Association say the hobble skirt is doomed, but not a word about the women that try to wear them.—Exchange.

They are doomed, too,—to trouble and inconvenience.

In answer to complaints about the high cost of living, it has been the fashion for those who would condone it to say that the farmer is coming into his own and therefore the rest of the people should not complain. The city cannot get along without the country and every fair-minded person wishes the farmer well. But does the farmer get the benefit of high prices? So important an authority as Secretary of Agriculture Wilson says he doesn't, but that the middleman gets it. The cost of living can be reduced without hurting the farmer.

Texas brags about being a tremendous State, but its population is less than twice as large as that of North Carolina. Although North Carolina has no big cities, its population causes it to compare favorably with many of the states. With its 2,206,287 souls it has more people than either Alabama, Arkansas, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Virginia or West Virginia, not to speak of the states that are away below North Carolina in population. This State's population puts it right along in the class with California, Indiana and Kentucky.

The decision of the Supreme Court in the mileage matter will meet with general approval. The railroads are tyrannical in demanding that mileage shall be "pulled" at ticket windows instead of on trains as was the practice before the reduced passenger rate went into effect. Ticket offices open only a limited time ahead of the time for departure of trains and the mileage-pulling nuisance causes needlessly strenuous experiences for both the ticket agent and the general public. The Supreme court decision no doubt means that the Legislature will demand that the railroads pull mileage on trains in North Carolina.

The reappointment of Willis G. Briggs as postmaster at Raleigh occasioned the flaming up anew of the feeling between the two Republican factions in North Carolina politics. Mr. Briggs is a confirmed Duncan man. Chairman Morehead promptly had the confirmation of Mr. Briggs held up in the Senate, the action in the Senate being taken at the instance of Senator Carter, of Montana, a crony of former Senator Butler. This is one of many clashes which may be expected in North Carolina Republican politics in the coming months. Federal patronage is an everlasting bone of contention with the "Grand Old Party." That "noble discontent" that Tom Settle spoke about so feelingly at the State convention is merely a fancy name for a craving for pie as latest development in Washington plainly shows.

ROOSEVELT WILL TOUR AGAIN

Has Received 3,000 Invitations To Make Speeches.

New York World.

Col. Theodore Roosevelt is to make a two months' tour through the country, visiting practically every State outside of New England. He said that it was impossible to announce any of his speaking dates except those of six lectures at the University of California, which are to begin on March 23.

The ex-President will leave New York in the first week in March. His first stops will be in the South, probably in Georgia, where he was enthusiastically received on his fall tour. After visiting the Southern States and completing his course of lectures in California he will zigzag throughout the West.

He says he has received 3,000 invitations to speak and that 30 reached his office yesterday. No announcement of his itinerary will be made until after January 1.

It seems likely that Colonel Roosevelt and Governor-elect Baldwin will smoke the pipe of peace at the dinner to be given by the New Haven Chamber of Commerce next week. Judge Baldwin was so incensed by comments on a decision rendered by him that he threatened to sue Colonel Roosevelt for libel. Colonel Roosevelt says he received a letter from Judge Baldwin and immediately sent a reply. When the answer to this is received it is probable that Colonel Roosevelt will announce a truce. Reports in an afternoon newspaper that letters sent by Colonel Roosevelt to Judge Baldwin have been returned unopened are declared false by the Colonel.

Colonel Roosevelt says the New Haven report that in his speech there next week he will "explain the election" is untrue.

"There was not one word in my letter accepting the invitation to speak before the New Haven Chamber of Commerce that even hinted that I would refer to politics," he said. "I have had thousands of requests to make some political utterance, but before election I decided that in any event I would take two months of complete rest.

"The speech at New Haven and an after-dinner speech I have agreed to make at the Periodical Publishers' Association dinner in January will be the only breaks from my program of having a good rest. There may be one or two other engagements, but I hope not."

The Public Service Company yesterday erected a handsome electric sign for Wills Book & Stationery Co. and the lights will be burning tonight. Two sections of the sign had to be made to order and these sections will be put up as soon as they arrive.

MISS SHAW AND MR. ENGLAND WED

Ceremony Performed At Home of Bride's Brother, Mr. J. T. B. Shaw—A Beautiful Home Wedding—Happy Couple Off On Wedding Trip.

One of the prettiest weddings of the season took place at the residence of Mr. J. T. B. Shaw yesterday afternoon when his sister, Miss Susan Carolyn, became the bride of Mr. Norton England.

The house had been beautifully decorated with ferns, palms, and cut flowers; the color scheme in the parlor, where the ceremony was performed, being white and green; and the library, in red and green, where many beautiful presents were displayed; the dining room, in pink and green, where Misses Edith Petree and Mabel Ridge served punch.

Just before the ceremony, Miss Gonzella Byrne sang "All for You," after which the bridal party entered to the strains of Mendelssohn's wedding march, played by Miss Ethel Blaylock, of G. F. College.

An aisle was formed of white ribbon carried by Misses Frances Shaw, niece of the bride, and Maurine Moore, who wore lingerie dresses with ribbon.

Miss Allie Brown, of Red Springs, the bride's maid, dressed in messaline, with pearl trimmings, and carrying pink carnations, entered, followed by the bride, who wore a dark blue tailored gown and chiffon cuffs, with hat and gloves to match, carrying roses, and leaning on the arm of her brother, Mr. J. T. B. Shaw, who gave her away. They were met at the altar by the groom with his best man, Mr. H. J. Meade. Rev. Melton Clark, of the First Presbyterian church, performed the ceremony in a most impressive manner, the ring ceremony being used, while Miss Blaylock softly played Shumann's Traummeri.

The guests were received at the front door by Mrs. H. J. Meade, in black messelin with pink carnations; and Mrs. A. G. Moore, in tan crepe de chine. Receiving at the library door were Mrs. J. T. B. Shaw, in grey Persian silk, with diamonds, and Mrs. B. F. Kauffman, in green net over satin.

Receiving at the dining room door were Mrs. A. L. Petree, in black silk with lace and passementrie; and Mrs. N. J. McDuffie, in black lace.

The groom holds a responsible position, being commercial sales agent for the Missouri Pacific Railway, with headquarters here.

The bride is a most attractive young woman who has for several years made her home in Greensboro with her brother, Mr. J. T. B. Shaw. She is originally from Lillington, Harnett county.

The happy couple left last night on No. 35 for a trip to Atlanta, St. Louis, and Chicago. After Dec. 31 they will be at home at 114 Library Place.

Recital At Normal.

On next Tuesday evening at the Normal College a recital will be given in which two noted soloists will take part. The particulars will be published later.

A LARGE CONTRACT

When Howard Gardner, the enterprising druggist, first offered a 50 cent package of Dr. Howard's specific for the cure of constipation and dyspepsia at half price, and guaranteed to return the money if it did not cure, he thought it probable from his experience with other medicines for the disease, that he would have a good many packages returned. But although he has sold hundreds of bottles, not one has been brought back.

To those suffering with dizziness, headache, poor digestion, constipation and straining, Dr. Howard's specific offers quick relief. It is an invaluable boon to all who feel unfomfortable after eating, and is today the popular dinner pill in all the large cities.

We Have Something to Say

We are not making a "charity plea" or anything of the sort, but we do want you to know that we are a small agency and need a part of your business. WE WRITE--

Fire, Life, Health, Accident and General Liability Insurance and Bonds,

AND WE KNOW HOW TO DO IT, and have some of the best companies to do it with.

Won't you loosen up and remember us when you go to give your business to these older and larger agencies who have had your business since the days of Noah. We want them to live and do well and THEY CAN EASILY DO IT EVEN IF YOU DO GIVE US A SMALL POLICY.

If you want to enjoy the real spirit of Christmas give the small man, the fellow on the bottom round, a lift. He is the one that needs it and not the man already at the top.

We will appreciate a small part of your business, not as a charitable gift but as a sign of your good will toward the fellow that is trying to do something for himself.

FERTILIZER FROM THE AIR.

Scietists All Over the Country Watching With Keen Interst the Efforts of the Southern Power Company to Produce Nitrates From the Air.

Charlotte Observer.

The machinery is arriving and work will soon begin for the erection of the 4,000 horse-power plant at Great Falls, S. C., by the Southern Power Company for the manufacture of nitrates from the air by an electro-chemical process for use in various forms as commercial fertilizer. This 4,000 horse-power plant will be followed by a second of 20,000 horse-power capacity which will in turn be followed by others as the success of the undertaking grows until almost all the surplus power of the rivers will be devoted to the manufacture of these nitrogenous manures on a commercial basis. It is generally believed that this is but the beginning of a great industry on this side of the water, similar in many respects to that which has sprung up in Norway and other parts of Continental Europe. This 4,000-horse-power plant, work on which will begin next month, will cost approximately $200,000 and that of 20,000-horse-power capacity which is to follow it will represent an outlay of upwords of $1,000,000. Scientists all over the country are watching the efforts of the Southern Power Company with the keenest interest and will await the result with the greatest concern.

However that may be, agricultural chemistry is now producing a compound known as calcium cyanimide, or cynanimid, a different product from that which the Southern Power Company is to make from atmospheric nitrogen in the electric arc. Cyanimid differs from the nitrates in that it is a truly artificial compound, which has never been produced in nature and would never be in all probability.

The compound was discovered by a German chemist, Adolph Frank, who came across it in passing nitrogen over highly heated coke and lime. Upon experimenting with the new compound which he had produced, he found that when it remained for a time in moist earth, it gradually decomposed, forming ammonia, and conceiving the idea that it would be valuable as a fertilizer, made some experiments which fully justified his surmise. Since its discovery, the compound has been manufactured on a large scale for agricultural uses. Mr. Avery Patton is now handling it in this city.

Wants To Help Some One.

For thirty years J. F. Boyer, of Fertile, Mo., needed help and couldn't find it. That's why he wants to help some one now. Good Hunting.

It was at St. Andrews, in Scotland, the home of golf, where the links stretch away over the moors by the sea, and dear, quiet Aunt Mary had gone up from London to visit a golfing family of nephews and nieces. At tea the first afternoon some one managed to stop talking golf long enough to ask, "Well, Aunt Mary, and how did you spend the morning?"

"Oh, I enjoyed myself immensely, my dear. I went for a walk on the moor.

"A good many people seemed to be about, and some of them called out to me in a most eccentric manner, but I didn't take any notice of them. And, oh, my dear, I found such a number of curious little round things! I brought them home to ask you what they are."

Hereupon Aunt Mary opened her workbag and produced twenty-four golf balls.

324 S. Elm St.

The big piano sale will soon be over at the Cheek-Huston Piano & Organ Co.'s store.

It has been a busy place for the past week, as people are realizing that it is the greatest piano opportunity ever offered to piano buyers in this section.

There are many bargains left yet, and if you ever expect to buy a piano, it would pay you to make room for it some way and take one to your home.

Remember the prices at which we offer to sell these goods, will only last for two days more, and as this is the last call, it will pay you to make your way to our store at once.

It is useless for us to quote prices and terms here, because, as we say, no reasonable offer will be refused from reliable people. In other words, we have a few more pianos here for sale, and it does not require salesmanship to sell goods at these prices.

Don't delay. Act quickly and receive the benefit.

MRS. EDDY'S DEATH

Conclusive That She Suffered Pangs of Pneumonia.

Boston correspondence N. Y. Sun.

Mary Baker G. Eddy died consistent with her belief in the adequacy of faith to triumph over death. In the last shadow she did not waver or ask for aid outside the prayers of her pupils.

The advance of pneumonia strangled her as she prayed.

Not one of the usual stays against death which the medical science interpose in desperate moments was requisitioned. The members of her secluded household in Newton stood about the bedside, their hands folded in prayer.

The pangs of dissolution, which physicians say are terrible in pneumonia, had their course and left the corps of an old woman whose face showed no mark of agony.

"Then there were no mechanical or medicinal aids given Mrs. Eddy when she was dying?" was a question put today to Alfred Farlow, one of the hierarchy of the Mother Church of Christ, Scientist.

"No, there was nothing besides the aid which Christian Science provides," Mr. Farlow answered.

"And Mrs. Eddy simply became sick and died?"

"Yes," the head of the publication committee answered, "and I think she did it rather decently, don't you? I mean that she died very quietly and as an old lady would be expected to die."

Saved From Awful Death.

How an appalling calamity in his family was prevented is told by A. D. McDonald, of Fayetteville, N. C. R. F. D. No. 8. "My sister had consumption," he writes, "she was very thin and pale, had no appetitie and seemed to grow weaker every day, as all remedies failed, till Dr. King's New Discovery was tried, and so completely cured her, that she has not been troubled with a cough since. 'Tis the best medicine I ever saw or heard of." For coughs, colds, lagrippe, asthma, croup, hemorrhage-all bronchial troubles, it has no equal, 50c, $1.00. Trial bottle free. Guaranteed by Fariss-Klutz Drug Co.

Worried.

"Jimmy didn't call last night."

"He didn't? What's the matter?"

IN HOBBLE SKIRT SHE CHASED "HONEYBOY"

"But Mamma Couldn't Run," Wails Tiny Miss Valentine, Who Mourns for Pet Dog.

New York World.

"Mamma wore a hobble skirt, and that's exactly why Honeyboy got away," announced six-year-old Jacqueline Valentine to a number of little playmates at the Ansonia Hotel yesterday.

"Honeyboy was my bulldog, you' know," continued Jacqueline. "But I think some one else owns him now, just because of that horrid hobble skirt. You see,we were getting out of our touring car at the hotel. Honeyboy— You know, he cost $1,000 and was brought from Paris only a few weeks ago. Where was I? Oh, yes. We were getting out of the touring car and Honeyboy chased after another car that was going like sixty down Broadway. Mamma tried to chase him. She couldn't run; she could only hobble, and so Honeyboy got away."

"Didn't you tell the policemens?" asked one of Jacqueline's sympathetic playmates.

"Yes. I told five of them who stood on the corner guarding the taxicab chauffeurs. They followed Honeyboy, but he ran faster than they could. They were all big and fat anyway."

Mrs. Edna Valentine begs to differ with her little daughter. She says the hobble skirt wasn't to blame. Honeyboy, though expensive, is just a stubborn little dog, she explains. But Mrs. Valentine is willing to admit anything Jacqueline says about Honeyboy, and even goes so far as to confirm the little girl's announcement that a substantial reward will be paid for Honeyboy's return, which explains why employees of the Ansonia are spending all their spare time searching upper Broadway and cross streets, anxious to catch a glimpse of a low-built brown bull-dog with projecting underjaw, answering to the name Honeyboy.

A Simple Safeguard for Mothers.

Mrs. D. Gilkeson, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. Howard Gardner.

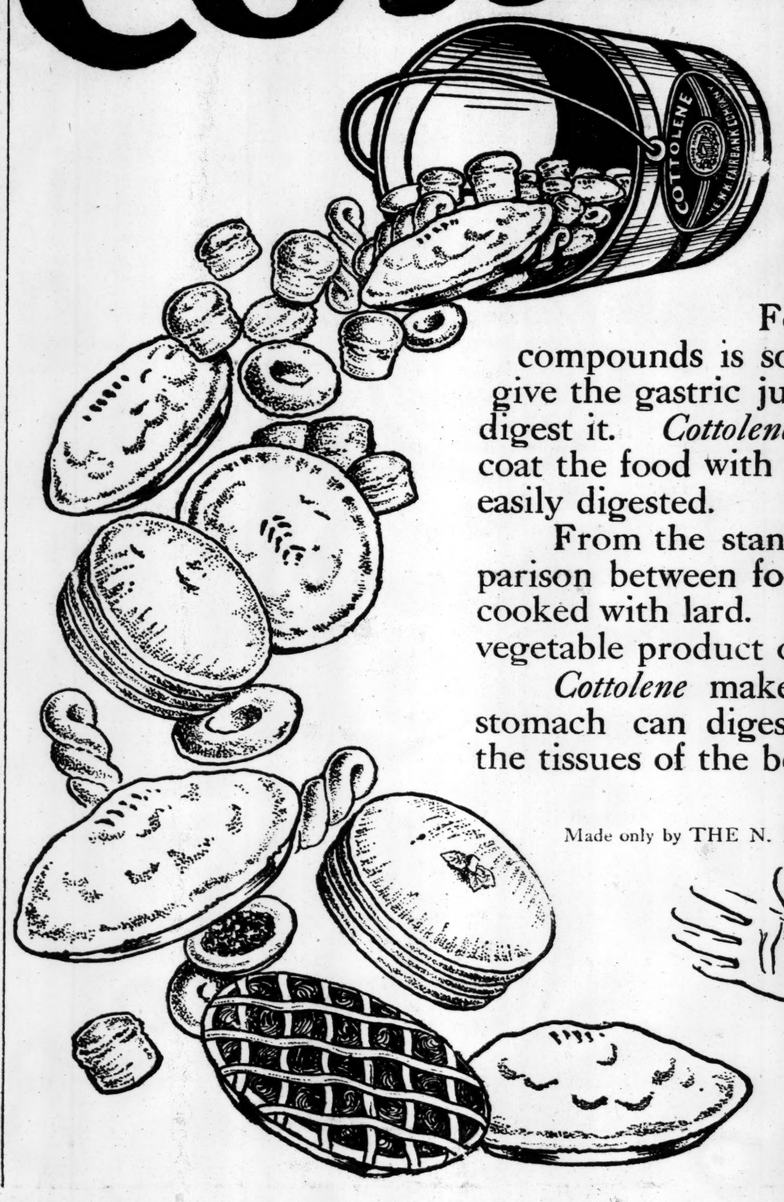
Cottolene



Makes Healthful and Delicious Pastry

Food cooked with hog lards and compounds is so thickly coated with grease as to give the gastric juices little chance to assimilate and digest it. *Cottolene* contains no hog fat. It does not coat the food with grease, and food cooked with it is easily digested.

From the standpoint of health there is no comparison between food cooked with *Cottolene* and food cooked with lard. Lard is just hog fat—*Cottolene* is a vegetable product of Nature.

Cottolene makes food which any stomach can digest, and builds up the tissues of the body.

Is Sergeant's Alley a Street?

In Municipal Court yesterday morning the question, Is Sergeant's alley a street? was sprung without warning on Judge Eure. He ruled that it was a street. The Southern Railway was charged with blocking the alley for a longer period of time than is allowed by ordinance. The company claimed that it was not liable in this case as the alley was not a street. The court ruled that it was a street and fined the railroad company $5 and costs. An appeal was taken and a jury will pass on the question.

MEMORIAL TO DR. MURPHY

An Invitation To Become a Member of Organization To Erect a Bronze Statue In His Honor.

The Telegram takes pleasure in complying with a request to publish the following:

Believing that you will be interested in the subject, and hoping that you will welcome the opportunity to aid in the matter set forth below, we send you this communication.

The undersigned friends and admirers of the late, deeply lamented, Dr. Murphy, the famous superintendent of the State's noblest institution, The Hospital for the Insane, at Morganton, feel that a suitable memorial worthy of the man and of his great work should be erected in his honor. They have therefore united to form the Patrick Livingston Murphy Memorial Association, and to promote its extension.

We therefore invite you to become a member of the organization, and to contribute such an amount of money as you may desire, and to assist by personal effort in the accomplishment of the object we have in view.

Dr. Murphy was justly regarded as one of the foremost alienists of our country, and was undoubtedly one of North Carolina's great men. He did great things for our State, in his remarkable work for our most grievously afflicted class. By his ability as a physician, his rare execution and administrative powers, his whole-hearted and untiring devotion to the successful management of the institution, and particularly to the welfare of its inmates, and by the honesty and sincerity of his character, he so impressed himself and his plans for the advancement, of the great and beneficent cause in which his heart and life were bound up, upon his board of directors, upon the legislature, and upon the people as to bring about the result now to be seen in the magnificent institution which stands unrivaled in the South. His work was an inspiration, not only for the alleviation of the sufferings of the insane, but also for the doing of greater things on other lines. He was no small factor in the upbuilding of our State.

In the twenty odd years of his service, thousands have been the recipient of his skillful treatment and tender solicitude, a large proportion of whom were restored to home and family, "clothed in their right minds." They rise up with grateful hearts and call him blessed, and we feel sure that they and their relatives and friends will deem it not only a sad pleasure, but a privilege to aid in doing honor to his name and achievements.

It is proposed to erect to his memory, a bronze statue,* to be placed in front of the magnificent main building overlooking the beautiful grounds, with its velvet lawn and noble trees which were his pride and joy in life.

Yours truly.

to ask a friend to do you a favor when it is impossible to secure the favor in any other way. But why ask a friend to go on your bond as surety when the Greensboro Loan & Trust Company can give better security than an individual at no extra cost for its faithful discharge of its duty as a trustee or executor or administrator. Why should you sign a bond by which your "heirs, executors, administrators and assigns are held and firmly bound" to pay for the default of others; perhaps after your death, every dollar of your estate?
